JavaScript & TypeScript

React & Next.js

Node.js & Express.js

RESTful API

Redux Toolkit

Tailwind CSS & Bootstrap

MySQL

PostgreSQL

MongoDB

Prisma ORM

Zod

Railway

Git & Github

PROFILE

I am a Full Stack Developer, Founder of Veltstack, and an Electrical and Electronics Engineer with ~6 years of experience. I develop scalable web and mobile projects for sectors like e-commerce and finance. I enhance digital visibility via SEO and data analytics, building sustainable solutions using "clean code" principles.

WORK EXPERIENCE

Founder & Full Stack Developer

Jan 2026 - Present

Veltstack

Under the umbrella of Veltstack, the developer agency I founded, I provide end-to-end solutions focused on web development, mobile applications, and strategic SEO. I manage all technical processes by transforming my clients' complex requirements into modern, scalable architectures, and I maximize their digital performance.

Full Stack Developer

2023 - Oct 2025

Freelance, Remote

I managed the entire project lifecycle, from requirements analysis to deployment, for national and international clients. I successfully brought to life numerous projects, ranging from AI-powered SaaS platforms to complex e-commerce systems. While building secure systems, I continuously optimized the success of the projects through SEO and data analytics integrations.

EDUCATION

Electrical and Electronics Engineering

2019 - 2023

Istanbul Commerce University

CERTIFICATES

Full Stack Developer

Mar 2022

Europe Coding School & Ecodation

Vercel & cPanel

HTML & CSS

Postman

React Native

Flutter

Google Analytics 4 (GA4)

Google Search Console

Google Ads

Meta Ads

OUTSTANDING PROJECTS

Veltstack Corporate Platform

Jun 2026 – Jul 2026

veltstack.com

A multilingual corporate platform showcasing web development, mobile application, and SEO services. It offers an end-to-end digital storefront with a service catalog, project portfolio, technical blog, and dynamic contact form.

Fablessi — Garden & Balcony Furniture

Jun 2026 – Jul 2026

fablessi.com

A corporate website and digital product catalog developed for the İnegöl-based Fablessi brand. It presents premium garden and balcony furniture with a discovery-focused showcase experience; it supports direct communication via WhatsApp and phone.

IQfinansAI

Dec 2025 – Feb 2026

iqfinansai.com

An AI-powered financial management SaaS platform built to analyze, visualize, and seamlessly manage complex data. It offers a user-centric dashboard for centralized monitoring, integrating advanced charting tools and intelligent analytics to streamline financial processes and data-driven decision-making.

Expert Clinical Psychologist Website

Jul 2024 – Aug 2024

nisademir.com

A CMS-supported personal website developed for expert clinical psychologists. It offers a professional digital identity with therapy areas, a blog/articles section, and a contact form.

Yazıcı Ticaret — E-Commerce Platform

Mar 2024 – Jun 2024

yazici.gen.tr

A comprehensive B2C e-commerce solution built to drive digital sales in the white goods sector. The platform offers a highly responsive modern interface, robust 3D Secure payment infrastructure, and an advanced admin panel that empowers the brand to seamlessly manage its entire operations from end to end.

Accountant Web Platform

Oct 2023 – Nov 2023

onlinemuhasebe.org

Corporate website for freelance accounting services. Features include MongoDB-powered dynamic content, a contact form, a light/dark theme, and SEO infrastructure.

Yazıcı Ticaret — Digital Catalog

Apr 2023 – Jun 2023

A digital platform for the white goods sector. Features include a product showcase, request tracking, a support system, and a comprehensive admin panel.

ACHIEVEMENTS

- I doubled the transaction capacity by making the complex payment and order processes on e-commerce sites simpler and more fluid.
- Thanks to the emphasis I placed on SEO, I doubled the number of organic visitors to my projects on Google in a short time.
- I significantly reduced page load times, enabling users to have a smoother experience on the sites.
